2

What is EDMS?

YOUR DEQ online

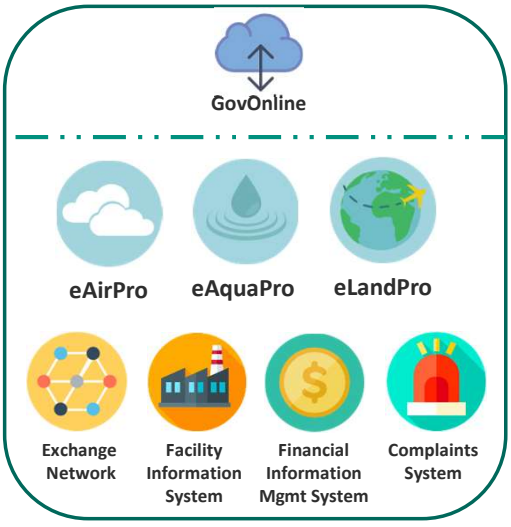
EDMS

Modernizing the way we accept, process and share information within DEQ, and between DEQ and our partners, to improve the efficiency and effectiveness of our work.

DEQ

3

EDMS: Your DEQ Online - Cloud-based Portal



- Regulated entities apply for and renew permits, certifications, and licenses online
- The public has improved access to public records, and DEQ's complaints system is modernized
- Centralized reporting portal
- Electronic payment options
- Central communication hub between DEQ and facilities/permittees
- Provides data exchange with EPA

DEQ

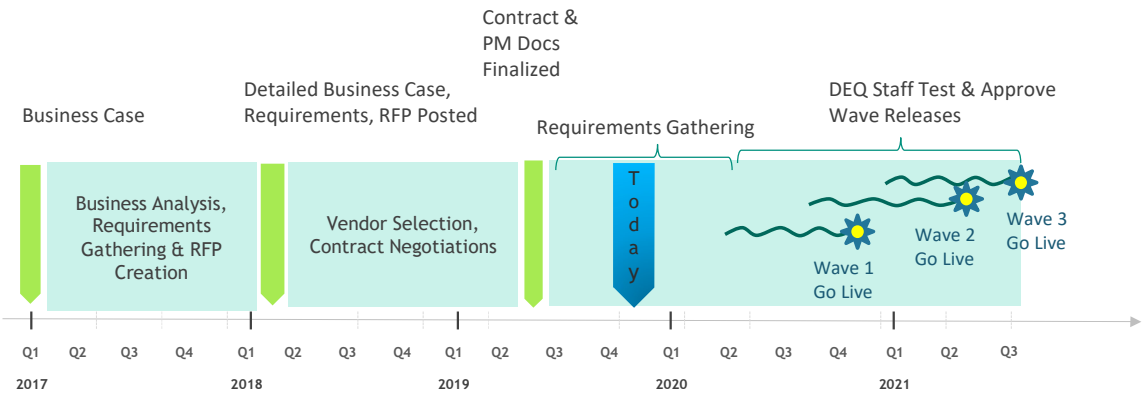
4

Why do we need EDMS?

- Replaces many tools and systems that are old, outdated, no longer supported, and costly to maintain
- Enables centralized, simple, efficient, and reliable data
- Makes our work more adaptable to changes in regulations
- Helps us standardize our processes
- Provides easy access to some public records
- Provides new services such as mobile functionality & e-commerce

5

Project Timeline



6

Strategic Alignment

Our IT vision is to **set the standard for excellence** among state agencies.

EDMS will help us set the standard

- ✓ Modern, business-aligned system
- ✓ Process standardization
- ✓ Robust service-level agreement
- ✓ Application consolidation

EDMS is central to our modernization strategy

- Replacing 100+ legacy apps, databases and spreadsheets
- Transferring maintenance and operations to trusted partner
- Less overhead means more time to focus on DEQ's mission!
